

BorsodChem Zrt.

SECURITY MANAGEMENT POLICY OF THE SUPPLY CHAIN

BorsodChem Zrt. – a member of Wanhua Group – is a corporate company with several decades of history that sells its products to numerous places in the world. We use qualified materials for our production processes and we are committed to excellence as regards product quality. By the high-grade organisation of our logistics processes and the application of advanced technologies, compliance with the security norms of the supply chain plays a key role in our everyday life in addition to the observance of legal regulations and the lowest environmental load.

In the course of our activity, we seek to satisfy the expectations of our business partners in due time and in high quality. It is our goal that our customers should regard BorsodChem as a reliable partner. Continuous development, the increasing satisfaction of demands, the recognition of factors in time endangering security of the supply chain and the regular improvement of security management processes are decisive factors in designating the direction for development.

In the interest of the above, we are committed to the followings:

- Survey and evaluate the risks and hazards related to security of the entire supply chain, define objectives for their reduction and execute measurements to serve customers continuously.
- Outline our Company's commitment for our suppliers and subcontractors expecting their support to the largest extent.
- Comply with the effective legal, regulative and legislative as well as voluntary requirements.
- Make our employees aware as to how their professional approach and conduct influence the maintenance of the supply chain security.
- Make every effort to ensure the appropriate protection during production, storage and transportation, handle information confidentially that has come to our knowledge.
- Operate and develop a management system continuously in compliance with ISO 28000 international standard.

The Management and Employees of BC Zrt. have realised that what we do together for the continued sustenance of the supply chain, we do it to be able to serve our customers smoothly thus ensuring our Company's long-term subsistence and development thereby.

April 2021

Kruppa László
Chief Executive Officer
